What alumni are saying

Michele H., Georgia Tech UX/UI Boot Camp alum

The UX/UI Boot Camp was a lifesaver for me. I was laid off due to a corporate reorganization after being with the company for a very long time. I knew that in order to compete in the job market today, I needed to do something to improve my chances to land the perfect job. The boot camp gave me the opportunity to sharpen the skills I already had, plus add new technical skills to enhance my portfolio. It was hard work but it was worth it in the end!

What is taught in an online UX boot camp?

Online UX/UI boot camp classes empower you to become an end-to-end UX/UI professional, with the hard and soft skills needed to solve big design challenges. One-third of the curriculum is dedicated to front-end web development, so you'll soon be fluent in the medium you'll be working with even if you aren't executing the programming.
